

# Gasket sheet GRZ typ 260

## Application:

Ideal sheet for applications at high temperatures and pressures. It can be used with water steam, hydrocarbons and the majority of chemical compounds. It is resistant to mechanical and thermal cycles as well as temperature jumps.

## TECHNICAL PARAMETERS:

Standards satisfied and approvals	
Classification per DIN 28091-2	
Basis	Expanded graphite, perforated stainless steel sheet
Density	1,2
Maximal operating conditions: Peak temperature	550 <sup>0</sup> C
Continous temperature	450 <sup>0</sup> C
Continous temperature in steam Pressure	450 <sup>0</sup> C 12 MPa
Factors per ASME Code: "y" "m"	17 2,0
