

# Packing 6084 Prima

Packing braided of top quality fibred, graphite filled PTFE-yarn, impregnated with oil. The packing is especially soft and flexible with low friction factor and high heat conduction.

Recommended use in high velocity pump glands and fittings, in contact with water, steam water, oils, solvents, saline, acids and alkalis except for strong oxidizers.

## TECHNICAL PARAMETERS

	Centrifugal Pump	Reciprocating Pump	Fittings
<b>T<sub>max</sub> °C</b>	<b>-200 ÷ 280</b>		
<b>p<sub>max</sub> bar</b>	<b>20</b>	---	---
<b>V<sub>max</sub> m/s</b>	<b>15</b>	---	---
<b>pH</b>	<b>0-14</b>
