

Packing 611

Braided packing made of cotton yarn impregnated with a composition of lubricants enriched with graphite. Its softness and flexibility is guaranteed by a special weave. The lubricant decreases friction and eliminates heat from the friction zone. It is recommended for fittings and high-velocity centrifugal pumps working in contact with water, water steam, oils, saline solutions as well as medium-strong acids and bases..

TECHNICAL PARAMETERS

	Centrifugal Pump	Reciprocating Pump	Fittings
T_{\max} °C	-30 ÷ 120		
p_{\max} bar	10	20	60
V_{\max} m/s	5	1,5	2
pH	0-14
