

## ANTI-SLIP TAPES

It can be applied onto most surfaces and will instantly provide high quality anti slip protection that meets safety standards throughout the world

	<p>A huge variety of self adhesive non-slip griptape, you can choose the width, shape or colour (we accept colour match's to either <a href="#">PANTONE</a> or <a href="#">RAL</a>). The colour range for anti-slip tape is unlimited, we will make to your requirement . Heskins anti slip floor tape works around oil, grease and water; it can be used to create anti slip flooring both indoors and outdoors.</p>
	<p>The material does not consist plastics, and that provides fire resistance.</p>
	<p>We can cut to size or shape, our accuracy for anti slip is 0.1mm and we only use the best solid steel tooling methods for cutting our safety-grip tape. Heskins can slit a roll of anti-slip grip tape to any width from 19mm (sizes down to 10mm are possible but please enquire) to over 1m, we can work with your tolerances for recesses or specific requirements. We produce our anti-slip grip tape in grades that suit all applications from bare foot use to extreme heavy duty, our heaviest duty product, which is unique in the world is the X-Coarse grade, very durable, very industrial.</p>
